

SOLSPARK

# INTRODUCTION

- ❶ Solspark is a metaverse designed for the future generation of the cryptocurrency space. SOLS is the first holder-centered multiple product in one Metaverse, offering Compound interest, a P2E Metaverse game, Coin Flip, Swap, Staking, and Wallet on the Solana.
- ❷ Profit Sharing: All profits from our ecosystem are collected and distributed to holders on a monthly basis, ensuring consistent and substantial rewards for our community.
- ❸ Multi-in-one Ecosystem for MULTIPLE Earnings: SOLS utilities, including the P2E Metaverse Game, Coin Flip, Wallet, Swap, and Staking, are ready to help users earn.
- ❹ This approach ensures that investors benefit from a comprehensive and integrated ecosystem without any tax burdens, enhancing the overall earning potential and user experience.

# VISION & MISSION

## VISION

Solspark aims to revolutionize the cryptocurrency space by creating a dynamic, holder-centered metaverse where users can effortlessly earn and engage through innovative features and a robust ecosystem.

## MISSION

Our team aims to make this project lead the next trend on the Solana blockchain and make life easier and safer for crypto investors. In other words, we aim for a project to break the limits of the conventional metaverse and utility platform to lead the future of the blockchain space.

Join the revolution in the most innovative protocol and secure your financial future.

## ENTER THE MARKET: SOLS PLAN

The goal of Solspark is to protect our investors with the holder-centered ecosystem. To achieve that, we are ready for the bear market with the SOLS Plan:

- ① **The product is the king.** We are building real products that benefit users truly. Specifically, P2E Game Beta Test Version, Swap Testnet, Flip Coin and Staking are ready to go live.
- ② **A strong business model is our strength.** The benefit of holders comes FIRST. We give profit sharing, compounding interest between products, and a tight, anti-inflation mechanism. We are also developing partnerships with other projects. A strong business model is our strength. The benefit of holders comes FIRST. We give profit sharing, compounding interest between products, and a tight, anti-inflation mechanism. We are also developing partnerships with other projects.
- ③ **Everything is for the community.** We let our community Vote, Raise voices in our private DAO. We are also scheduling an AMA tour, contests and events to reward members.

## REWARDING

Users will be rewarded on every buy transaction and for the long-term token holding.

## STAKING

Stake SOLS to get up to 1000% APY and be a part of DAO with exclusive privileges

# HOW TO EARN

## FLIP TO EARN

Investors who buy \$SOLS in Presale will be especially involved in coming with many attractive privileges

## PLAY TO EARN

Join a P2E game which rewards \$SOLS per each mission every day to earn tokens and other valuable prizes.

## HIGHLIGHT

### PROFIT SHARING

All ecosystem profits are collected and distributed to holders monthly, providing consistent and substantial rewards for our community

### HOLDER-CENTERED APPROACH

SOLS focuses on creating value for its holders by integrating multiple products into one cohesive Metaverse, enhancing user experience and maximizing earning potential.

## COMPREHENSIVE ECOSYSTEM

SOLS is a comprehensive ecosystem with diverse products including Swap, Staking, Wallet Coin Flip and P2E Metaverse Game. The products are ready and scheduled to launch following the Roadmap.

## DAO

Investors who purchase \$SOLS with an amount greater than \$10,000 will be added to our private DAO, enjoying numerous attractive privileges such as free tokens, voting rights, and whitelist access for other team token/NFT launches.

## DEFLATION

Solspark will utilize profits to buy back and burn \$SOLS tokens, reducing the total supply and increasing the value of remaining tokens, benefiting all holders

## ECOSYSTEM

### SOLS SWAP

- › SOLS Swap is a decentralized exchange developed on the Solana blockchain that allows you to exchange tokens with low gas fees.
- › The Swap will also include limit orders, stop losses and more functions.

## ECOSYSTEM

### SOLS STAKING

\$SOLS holders will also be able to stake their tokens to get passive income. Stakers will receive various benefits from the staking pool.

- » - The staking ecosystem comprises of:
- » - Staking Fee: 0%

Early Unstaking fee: 10% (2% buy back and burn, 8% send to Reward pool)

Holders can stake \$SOLS tokens to get compound interest.

## ECOSYSTEM

### P2E GAME

SOLS P2E Metaverse Game will be released in the near future. This is an AAA game developed by Unreal Engine 5, bringing great visual and smooth experience to players.

It is a combination of power and ability that will help players to play for free and earn tokens/NFT. Thanks to the Free-to-play mechanism, users can join the game for free and get daily rewards.

- » We plan to have a combination of action RPG and a dynamic NFT trading economy that will keep players engaged.
- » Players need to own an NFT to fight with other players in exciting matches and win prizes!
- » A weekly/monthly competition is held to receive large amounts of tokens and unique rewards.

# ECOSYSTEM

## SOLS WALLET

SOLS Wallet is a cryptocurrency wallet used to support the storage and management of coins/tokens for users, allowing them to have full control of their assets. SOLS wallet will support the management of SPL tokens and will expand other Blockchain in the future.

### Advantages of SOLS Wallet:

- » Allows users to use tokens stored right on the wallet to staking, trading or participating in games integrated on the wallet.
- » Storing with private key on user devices, we do not control anything of users.
- » Easy to use, user-friendly interface, can trade conveniently on PC and mobile phone.
- » Supports more than one token with different blockchains.
- » Users are in full control of their cryptocurrency, trading anywhere, anytime.

# ECOSYSTEM

## COIN FLIP

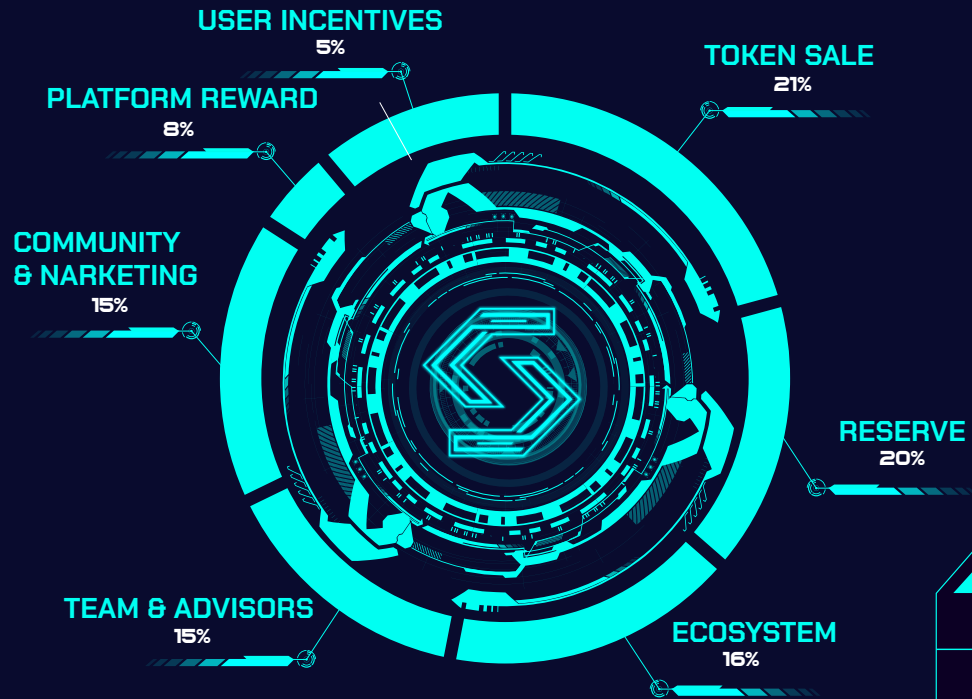

Coin Flip is a utility that follows the current rising trend Flip-to-earn, allowing users to both entertain and earn money easily and quickly.

It allows users to bet \$SOLS or SOL by playing Head or Tail to DOUBLE the bet instantly with 50/50 winning probability.

Treasury Pool is public, everything is fair on an open-source smart contract.

We will charge a 5% fee for each win, this fee will be used to buy back and earn for the purpose of stabilizing the token price
